

Forsterite (Mg_2SiO_4)

Materials for Geoscience

Feature

- ✓ Non-doped pure forsterite single crystal
- ✓ Large diameter

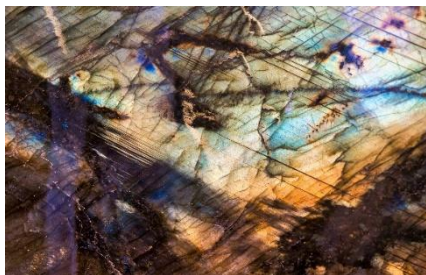

Specification

Item	Specification
Material	Mg_2SiO_4 (Without any dopant)
Boule Diameter	~50 mm ϕ
Boule length	Up to 50 mm
Standard device Dimension	10 mm x 10 mm x 10 mm (As sliced surface finish)

Application

- ✓ Research for Geoscience and Mineralogy

Option

- ✓ Custom growth with special dopant
